

INTRODUCTION AND BACKGROUND

UNIT TRUST OF TANZANIA [UTT]:

Unit Trust of Tanzania was incorporated on 19th June, 2003 by the Government of United Republic of Tanzania under the Trustees Incorporation Act. One of the objectives of UTT is to establish, launch & manage 'Collective Investment Schemes' in the country. Till date UTT has launched five Collective Investment Schemes Currently, UTT has assets under management [AUM] to the tune of around Tzs. 150 billion [\$ 94 million] as of 22nd Nov, 2013, with an investor base of over 100,000 unit holders.

UTT Core function

- To acquire and keep in trust the shares of the privatized enterprises that were held by the Privatization Trust and all those shares of the privatized enterprises that will be placed in trust by the Settlor from time to time in the course of the privatization of public enterprises;
- To ensure that, shares that are held in trust are distributed among Tanzanians citizens in a manner that will encourage and facilitate savings and wider participation by citizens in the ownership of privatized enterprises that will enable and stimulate participation in capital markets; and
- To establish, launch and manage collective investment schemes so as to achieve the objectives of the Trust.

Effective from January, 2013 UTT had re-organized its organization structure from five directorates into 3 functional divisions namely; UTT Asset Management and Investor Services, UTT Microfinance and UTT-Projects and Infrastructure Development. The Distribution of these divisions was setup in such a way that, each division become a separate company by July, 2013 and to succeed the operations of these divisions

UTT- Asset Management and Investor Services (referred as UTT-AMIS)

UTT-Asset Management and Investor Services (UTT-AMIS) division was setup to be responsible with the launch and management of collective Investment Schemes and the provision of fund management service.

UTT-PID-Project Infrastructure Development PLC (referred as UTT-PID)

UTT-Projects and Infrastructure Development was set up to provide project management services into socially and economically viable projects.

UTT-Microfinance (referred as UTT-MFI)

UTT Micro Finance (UTT-MFI) was setup to give an opportunity to unit holders such that, they can utilize/use their own savings in the form of collateral while securing loans to serve other economic purposes and will also avail viable financing solutions to individuals, the SMEs and SACCOs and enable them implement socially as well as economically important projects.

The three companies were incorporated on 28th June, 2013 to take up the responsibilities of the originating divisions from the operative dates which was applied separate depending on the nature of the business for each particular company
